BROOKFIELD PLANNING BOARD 1977 REPORT

During the year the Board studied at length and held hearings on proposed zoning changes that would place special protection on the steep areas in the southwest part of the town, an area where erosion from increased development is a major consideration for the future. The changes are to be on the ballot in March 1978.

Two owners of land received approval for subdivision of their land, creating 12 new lots, all on existing roads. New lots in 1977 were 7 more than in 1976.

ROBERT H. CHARNOCK
Chairman

ANNUAL AUDIT REPORT

The Town audit was conducted and the original has been forwarded to the Division of Municipal Accounting Department of Revenue Administration as per instructions to Town Auditors.

The fundamental purpose of the audit is:

To determine that all Revenues to which the Town is entitled have been collected and remitted to the Treasurer or, properly verified as outstanding accounts; and, to determine whether all expenditures have been properly authorized, conform to law and are supported by appropriate invoices and payrolls.

We have audited the books to the best of our ability and have found the accounts in order.

ECONOMIC DEVELOPMENT ADMINISTRATION (Local Public Works Project)

In 1976 the Lakes Region Planning Commission provided information, technical assistance, and set up pertinent meetings for the Town of Brookfield regarding the Local Public Works Application and Funding which was awarded to the Town.

Upon notice of the award in 1977 the Selectmen engaged Rist-Frost Associates to assist in the detail work of having necessary repairs and restoration work in order to preserve and protect the Historic Buildings.

Specific areas of work recommended was a new roof and insulation for the Town Hall and attached School House, structural repair of perimeter sill, ventilation system of toilet facilities, fireproof existing furnace room, new artesian well, new Town garage, renovation of kitchen in Town Hall, exterior painting and storm windows, construction of parking area, entrance together with landscaping.

At this writing work is in progress.

The Lakes Region Planning Commission takes this opportunity to thank you, the Board of Selectmen, and the Planning Board for your continued support and interest in the Commission's Program. As you are aware, our primary objective is to support local community planning efforts and to be of service to the local community officials.

This past year, the Planning Commission completed an extensive environmental inventory and prepared a land capability analysis for the Town of Brookfield. The Commission has utilized that work in completing and adopting a broad Regional Land Use Plan. This Plan analyzes such policies as growth patterns, economic development, transportation, public facilities, open space and recreation, and defines objectives which the policies are designed to achieve.

Other regional programs, which the Commission has initiated, include: recommendations for action to protect water quality resulting from continued work on the 208 Water Quality Management Plan, including special testing procedures to identify water pollution resulting from failing septic systems; development of an economic base analysis and Overall Economic Plan which will lead to continued EDA funding for municipalities in the Region; finalizing a Rural Transit Plan for the Region; conducting meetings with the N. H. Department of Public Works and Highways to provide information to the towns regarding highway projects under construction or consideration; and an extended program of citizen participation and education, such as the Law Lecture Series which were well attended and highly praised by those attending.

The Planning Commission provided information, technical assistance, and set up pertinent meetings for the Town of Brookfield regarding the Local Public Works Application and Funding which was awarded to the Town.
